

FEEDBACK

- Love the second mockup's navigation system. Super interesting having the different pages be so large and emphasized on the front page.
- Mockup B:
 - Bring DHL cover out a bit more so you can see it better (and it's attached to singles)
 - Description of Frank could be down lower (if you make page longer) and text larger so it's more readable and emphasized. Really like mobile version version
 - Overall, there could be more layering going on (and/or diff background color)
 - Colors are working well
